

HERACLES EP-0, Multi-Purpose Grease

Document versie: 24 oktober 2012

Description

HERACLES EP-0 is lithium soap thickened mineral grease comprising of extreme pressure additives, for all type of bearings and mechanisms operating under heavy load and high temperatures.

Application

HERACLES EP-0 is specially formulated for steel industry installations, continuous casting lines, etc.

Features

Performances of HERACLES EP-0:

- Very good resistance to high loads;
- water-resistant;
- high sealing capacity;
- good resistance against humidity;
- can withstand high temperatures.

Benefits

Heracles EP-0 has a good antirust capacity under very aggressive conditions.

Typical Data

Parameter	Unit	Value
Appearance		Brown
Thickener (soap type)		Lithium
Base oil nature		Mineral
NLGI class	Grade	0
Penetration at 25 °C		355 - 385
Drop point		>170
Welding load	Kg	>250
Penetration 60W	0.1 mm	355/385
Oxidation stability at 100 °C	bar	max 0.55
Corrosion EMCOR	Grade	1
Copper corrosion	24h / 100 °C	Max. 1b
Temperature range	°C	-25 to 120

Technical Data Sheet

How to Use

- The usual cautions when handling and using lubricants;
- avoid an excess of grease when re-greasing;
- keep the can closed, after use, to avoid contamination;
- do not mix with different nature greases.
